Conditions for made-to-order products

- Made-to-order product: ships in 5-10 working days.
- Shipping to Italy €6.50, free from €80.00; other EU countries: flat rate €15.00.

Genuine STMicroelectronics triac rated 600 V and 8 A RMS, for switching AC loads on 230 V mains such as lamps, heaters and motors, in power controllers, solid-state relays and dimmers. 50 mA gate current, the standard version with the best immunity to false triggering.

Genuine STMicroelectronics triac rated 600 V and 8 A RMS, for switching AC loads on 230 V mains such as lamps, heaters and motors, in power controllers, solid-state relays and dimmers. 50 mA gate current, the standard version with the best immunity to false triggering. The Snubberless version switches inductive loads (motors, transformers, solenoid valves) without an RC snubber network. TO-220 with insulated tab: the heatsink is not connected to the terminals, so it can be mounted without an insulating pad.

Technical specifications

- **Repetitive peak voltage (VDRM/VRRM):** 600 V
- **RMS on-state current IT(RMS):** 8 A
- **Gate trigger current IGT:** 50 mA
- **Technology:** Snubberless
- **Package:** insulated TO-220
- **Mounting:** through hole (THT)
- **Contents:** pack of 5
- **Manufacturer code:** BTA08-600BWRG

Sale unit

Sold as a **pack of 5 pieces**: the price is for the whole pack.

Notes

- Made-to-order product: ships in 5-10 working days.
- Shipping to Italy €6.50, free from €80.00; other EU countries: flat rate €15.00.
- Price and availability are those published on informaticait.it when this document was generated and may change without notice: the price and conditions shown in the cart at the time of the order apply.
- This document is for information only: it is not a binding offer, a quotation, an order confirmation or a tax document. Companies, institutions and public administrations can request a formal quotation at info@microchipsrl.it.
- Photos are taken by us or supplied by the manufacturer and checked against the actual product. The product received may differ in appearance (colour, markings, packaging or batch) while keeping the functions and specifications declared by the manufacturer.
- Technical data are based on information from the manufacturer, errors and omissions excepted. Before using the product in a project, always check the official datasheet of the component.
- Products intended for prototyping, education and hobby or laboratory use: they are not certified for medical, automotive or safety applications unless otherwise stated by the manufacturer.
- Trademarks and names mentioned belong to their respective owners and are used only to identify model and compatibility.
